KING YOUR DOG

Did you know that your dog could be contributing to stormwater pollution? Dog waste, flea and tick prevention products and shampoos can contribute to stormwater pollution.

When walking your dog,

always carry a pooper scooper or plastic bag. Use them to pick up after

## **WASHING YOUR PETS**

If possible, bathe your pets indoors using less toxic shampoos or have your pet professionally groomed. Pet shampoos and soaps, even when biodegradable, can be toxic to humans and marine life.

Consider using alternatives such as oral or topical flea control products. If you use flea control products such as shampoos, sprays or collars, make sure to dispose of unused quantities properly.

Have fun with your pets! But please be a responsible pet owner and take care of them and

the environment.

Leaving dog waste behind is not only impolite, but it can also be picked up by rain and other water and

washed out to the ocean

or beach.

Canine fecal matter contains harmful bacteria, which can pose serious health problems to those that come in contact with

A reminder from the Redondo Beach Stormwater Program.
